

# Exercise 10

- Prepare for the Final

# To get familiar with AWT

- Buttons, Labels, GridLayout
- ActionListener
- WindowListener
- AWT methods
- General code usages

# Try it yourself

- Try to create your own AWT based program
- WITHOUT searching or peeking on the given handouts
- If you are confident with AWT, you may go
- Feel free to ask any questions while creating an AWT

# Two questions from AWT on the final exam

## 1. Fill in the blank style

TIP : try to hand-code yourself with various types.

ANY line or phrase may be deleted

## 2. Draw the GUI from the code (Bring rulers)

TIP : A square-grid (모눈종이) will be given.

Understand GridLayout and the order of objects.
